Unless notified to the contrary, the USTA Kansas District assumes that a player who applies for two age divisions prefers to play in the older division. A player who applied for entry in two age divisions and who is selected for the older age division is removed from the entry list for the younger division unless the player previously notified the USTA Kansas District that the player prefers to play in the younger division. A player who applied for entry into two age divisions and who was not selected for entry into the older age division is then considered for entry into the younger age division. If the player is not selected for the younger age division, the player is placed on the alternate list for the younger age division only. A player is not allowed to appear on two alternate lists.

Regulation 15: Late Entries. The Tournament Committee shall not accept late entries or add players to the alternates list.

- The Tournament Committee must use the Alternate List to replace withdrawing players until 9:00 p.m. the day before the draw is scheduled to start. A tournament official shall promptly notify the player at the top of the Alternate List when there is an opening. The Tournament Director has the

discretion to set the amount of time in which a player has to respond before a tournament official notifies the next player on the list or uses the on-site alternate list.

- Retirement from a match because of injury, illness, or personal circumstance;
- Inability to play because of injury, illness, or personal circumstance when the player's problem becomes apparent before the match or during the warm-up; or

The Referee, determines what constitutes a legitimate personal circumstance.

Tournament Administration

Regulation 21: Serve Tennis. USTA Missouri Valley Junior Section Tournaments and all tournaments included in the USTA Missouri Valley Standings list are required to use Serve Tennis for seeding, making the draw, score entry, updating and processing withdrawals, and all other tasks associated with recording results.

Regulation 22: Seeding. Seeding is done to ensure that players of recognized outstanding ability do not meet each other in the early rounds.

a) *Singles.* Seeding for all singles events is based on the most recent USTA National Standing List published before the draws are made.

b) *Doubles.* Seeding for all doubles events is based on the combined standing of the most recent USTA National Standing List published before the draws are made. In the event of a tie, the higher seed goes to the team with the highest ranked singles player.

c) *Number of Seeds.* The number of seeds is determined by the number of players in the draw and the seeding ratio specified by the [Friend at Court \(Table 6\)](#).

Regulation 23: Separating players from the same district. Whenever possible when making the draw, players will be randomly placed in the draw to avoid meeting a player from the same district in the player's first match. Sometimes changes in the draw are necessary after the draw has been published. No attempt will be made to separate players by district after the draw has been published unless it becomes necessary to remake the entire draw.

Regulation 24: Separating players from the same section. Whenever possible when making the draw, players will be randomly placed in the draw to avoid meeting a player from the same section in the player's first match. Sometimes changes in the draw are necessary after the draw has been published. No attempt will be made to separate players by section after the draw has been published unless it becomes necessary to remake the entire draw.

Regulation 25: Draw Formats at USTA Kansas District. Only the following draw types may be used *unless* the USTA Kansas District Junior Competition Coordinator, Chair of the USTA Kansas District Junior Competition Committee, and Vice Chair of the Junior Competition Committee determine that a change of format is necessary.

- a) *Doubles w/ singles.* All doubles events use a single elimination draw.
- b) *Level 5-7 tournaments.* Will use the draw types listed in regulation 33.

Regulation 26: Starting Times and Days. Tournaments with doubles may start no earlier than 8am , *provided that* the Referee may set an earlier start time if the Referee determines that inclement weather requires an earlier start. Tournaments run on the following days:

Regulation 27: Scheduling. The scheduling guidelines in USTA Regulation II.D.9. and [Table 8](#) are mandatory.

Regulation 28: Inclement Weather. Indoor court backup is not required for USTA Kansas District events. If indoor courts are available and the referee decides after consulting with the tournament director, players may be required to pay an additional fee, which is determined by the Tournament Director. If the Referee determines that there is inclement weather, the USTA Kansas District Junior Competition Coordinator (after consulting with the Tournament Director) may change the match format (provided the format is used for an entire round) or cancel an event. When canceling events, USTA Regulation III.G.5.a. is followed. Tournaments normally do not get canceled or rescheduled due to inclement weather forecasts.

Regulation 29: Suspension Point System. The USTA Suspension Point System applies to all junior tournaments sanctioned by the USTA Missouri Valley including the Junior Section Tournaments. It is a player's responsibility to know and understand the suspension point system and his or her status. Every effort is made to notify the player each time a suspension point is assessed. Failure to notify the player does not invalidate any penalties or points assessed. Please refer to Table 17 (Suspension Points) in Friend at Court.

Regulation 30: Injury, Illness, or Personal Circumstance. If because of illness, injury, or personal circumstance, a player withdraws from the tournament after the draw has been made or decides not to

play a match, then the Referee, USTA Kansas District Junior Competition Coordinator, or Tournament Committee will require the player to provide a document that verifies the illness, injury, or personal circumstance. If the reason for the withdrawal is illness or injury, the player must deliver written verification of the illness or injury from a medical professional no later than the last scheduled day of the tournament. If the reason for the withdrawal is a personal circumstance, the player must deliver a written description of the situation to the Referee before the last scheduled day of the tournament. The Referee determines whether the situation is a personal circumstance. Failure to provide the required documentation in a timely manner results in the match being treated as a default rather than a withdrawal or walkover.
