

System instructions: Line Calling

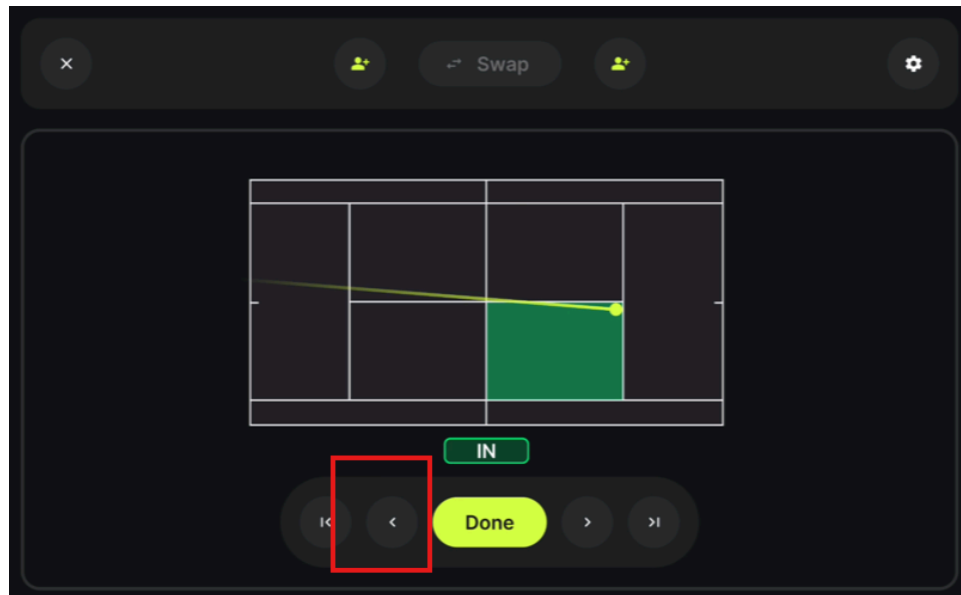

- 1) Before starting a match, ensure you select the match format you are playing (singles or doubles). Then select '**start match**'

- 2) To challenge a call, hit the '**challenge**' button. The system will then show where the ball landed and the highlighted zone of the ball bounce

- 3) If the ball shown is **not** the ball being challenged (e.g a serve was called out, but a return was hit, the return should show as it was the last shot), use the navigation buttons to find the challenged call

- 4) Once the call is confirmed or overruled, simply return to play
- 5) Once the match is finished, tap the 'X' on the top left and stop the match
