## **What is a USTA Missouri Valley Tennis Library?**

The Tennis Library is a courtside equipment storage receptacle providing players with the ability to play tennis without owning their own equipment. The Tennis Library combines a storage box with a USTA Missouri Valley Tennis Library decal & hardware kit.

## **What comes in a kit?**

The kit includes one front-panel decal, two side-panel decals, a hand applicator squeegee. Tennis equipment is not included and must be collected or purchased. We ask you to supply racquets and balls to "Pack the Library!"
