The screenshot displays the USTA Coaching website interface. At the top, the 'USTA COACHING' logo is on the left, and 'Upgrade' and a user profile icon are on the right. The main banner features the text 'TENNIS IN SCHOOLS: EMPOWERING EDUCATORS, INSPIRING KIDS' over a background image of children playing tennis. Below this, a paragraph states: 'As an educator, you hold the power to shape young minds and bodies. Tennis isn't just a sport—it's a dynamic teaching tool that helps you nurture well-rounded, confident students. The USTA has developed a complete suite of resources designed specifically for educators like you. Together, we can inspire kids to lead active, healthy lives both in the classroom and beyond.'

The section 'WHY PROVIDE TENNIS IN YOUR SCHOOL?' is divided into six boxes:

- SCHOOL TENNIS RESOURCES**: Our collaboration with SHAPE America delivers top-notch teaching resources perfect for PE classes and teachers, and middle and high school tennis coaches.
- PHYSICAL HEALTH & WELL-BEING**: Tennis promotes cardiovascular fitness, coordination, and a healthy lifestyle while reducing the risk of childhood obesity.
- PARTNER YOUR SCHOOL WITH USTA COACHING**: Whether you're a PE teacher introducing tennis for the first time or an experienced coach working with middle, high school and college teams, USTA Coaching provides the training and resources you need to succeed on and off the court.
- ACADEMIC EXCELLENCE**: Tennis boosts cognitive development: 48% of youth tennis players maintain an "A" average.*
- PROBLEM-SOLVING**: Tennis enhances critical-thinking skills by applying geometry, physics, and strategic reasoning.
- BUILDING CONFIDENCE**: Tennis develops self-esteem, resilience, optimism, and mental well-being. *According to the Tennis Industry Association (TIA) 2018 Tennis Participation Study.
