| Medical Testing and Protocols | <p>All persons (international and Americans) flying into the US need to have a negative PCR covid test 72 hours before boarding the plane. If you plan to travel internationally, you will need to get tested no more than 72 hours before you travel by air into the United States (US) and show your negative result to the airline before you board your flight or be prepared to show documentation of recovery (proof of a recent positive viral test and a letter from your healthcare provider or a public health official stating that you were cleared to travel).</p> <p>UPDATES TO THE CHALLENGER PRE-COMPETITION TESTING PROTOCOL:</p> <ul style="list-style-type: none"> • The Antigen Test becomes the default pre-competition test at Challenger tournaments. • ATP will accept a negative Antigen Test of no more than 24 hours before a Challenger tournament participant collects their credential. • Negative RT-PCR Test results (for travel) will still be accepted, provided they are <u>not</u> dated earlier than the Wednesday before the tournament. • If for reasons of earlier travel, a Challenger tournament participant does his travel RT-PCR test before Wednesday, he will be required to present <u>either</u> a negative Antigen Test no more than 24 hours before collecting their credential <u>or</u> a negative RT-PCR Test dated from the previous Wednesday or later. • Tournaments will be required to provide information about local testing possibilities and this information will be included in the FAQs. • Negative Antigen Test results will still need to be uploaded through Tennis UNO – this emphasises the importance of uploading the results without delay. • The Wednesday in-competition test remains an RT-PCR Test. <p style="text-align: center;">All players and guests are required to wear appropriate masks at all times except when on court.</p> | | |
