

# Electronic Line Calling (ELC) Requirements

*As of July 2025*

## USTA Minimum Requirements for Electronic Line Calling Devices

These are the requirements that guide decisions on eligibility outside of the actual regulation:

- The operation of the system must not be in conflict with other USTA Regulations.
- Systems must be able to accommodate Wheelchair competition or be developing the ability to do so.
- Systems must determine a call of "in" or "out" and must not rely on a video review of the impact.
- Any collection of personal data required to be provided by a player to use an Electronic Line Calling system must be in compliance with all USTA data privacy policies.
