**KEEPING HYDRATED**

All athletes should drink plenty of fluids (water, sport drinks, juice, milk, etc.) throughout the day. If you wait until you are thirsty, you have waited too long. Drink another cup of fluid just prior to play. In fact, also drinking 16 to 20 ounces of water, juices, or sports drink 60-90 minutes before your match can further help in avoiding heat disorders.

Bring a large thermos with you on court and drink frequently (i.e., at every changeover). Water and/or sport drinks are effective. After your match, drink plenty of fluids. It could be water, Gatorade, lemonade, juice, etc. If you prefer, dilute any of these to your own taste. Water by itself does not replace necessary electrolytes. Don't forget to eat! Fresh fruit and fruit juices are an excellent source of some electrolytes and carbohydrates, but you may have to make a special effort to replace some salt as well.

Remember, you are allowed 25 seconds between points and 90 seconds at the changeover.

## **SIGNS AND SYMPTOMS OF HEAT DISORDER**

1. **Heat cramps:** muscle spasms, usually due to extensive and repeated sweat losses, fatigue, and normal body temperature.
2. **Heat exhaustion:** extreme weakness, exhaustion, headache, dizziness, nausea, profuse sweating, chills and cool skin, normal body temperature, rapid pulse, sometimes unconscious.
3. **Heat stroke:** hot, dry skin, headache, nausea, confusion, staggering gait, extremely high body temperature, collapse, unconsciousness, sometimes and death.
