 - The physical address of a player's legal guardian may be the basis for a player's declaration of residency if the player is residing with that legal guardian.
 - The physical address of a boarding school, including a tennis academy, may be the basis for a player's declaration of residency if the player is enrolled and residing at the school or academy.
 - A player may change Section and District residency no more than once each calendar year.
- b) **Declaration of Residency by US Citizens Living Abroad.** A player who is a US citizen living abroad may declare residency by submitting a request for an assignment to a specific Sectional Association (and, if applicable, a specific District Association).

The Districts sanction and administer these tournaments even though district tournaments that follow USTA Missouri Valley Regulations 39-40 are included in the USTA **National** Standings List, *unless* the district notifies USTA Missouri Valley that the tournament should not be included.

Regulation 10: Missouri Valley Level 4 Tournaments. Annually, the USTA Missouri Valley sanctions 8 Level 4 tournaments for boys and girls in the 18, 16, 14, and 12 divisions. Four Missouri Valley Level 4 tournaments are open to players who reside outside the USTA Missouri Valley.

- a) *Maximum Draw Size.* The maximum draw size is 32 for singles and 16 for doubles.
- b) *Singles.* Players are selected into the singles draw from among those who apply to enter in order of their standing on the most recent USTA **National** Standing List published before the draw is made.
- c) *Doubles.* Players are selected into the doubles draw based on the combined singles rankings of the teams. Before the entry deadline, partners may apply online for entry by *each* player listing the other as partner. If both players apply online together for entry and are both selected for singles the team will be selected for doubles during the online selection process. After online singles entries close, a team may be placed in the doubles draw by both partners contacting the tournament director with their partner's information. If both players do not confirm with the tournament director, the team is not accepted into the doubles draw. Players may also send a request to the Tournament Director to be placed into the blind draw, which is where the tournament director randomly selects a random partner. All doubles registrations need to be confirmed by noon on the Friday after the Singles online entry deadline.
 - Players do not have to be in the singles draw to play doubles. If a player is not in the singles draw and wishes to play doubles, the player must still have applied for entry in the tournament and appear on the alternates list. Any player who was not selected for singles will be considered for the doubles draw only if the player informs the Tournament Director that the player still wants to play in the doubles draw.
 - A player has the responsibility to communicate with his or her partner about doubles at the tournament. If a player's partner does not make the singles draw or no longer wishes to play doubles, the player has the responsibility to communicate with the Tournament Director and find a new partner before the doubles deadline.
 - If a player in the doubles draw withdraws and the player's partner still wants to play doubles, the partner may play with any other player who applied for entry in the tournament and is on the alternate list or any other player who is on the singles alternate so long as the new team does not affect seeding. The player who seeks to play with a new partner is responsible for finding the partner and providing this information to the Referee. The Referee is not required to substitute the new partner into the draw if the Referee learns of the substitution less than one hour before the scheduled start of the first match in the doubles draw.
 - The entry deadline for doubles is at noon on the Friday after the singles online entry deadline unless otherwise specified on the tournament homepage.
- d) *Player must play in same division in singles and doubles.* A player must play in the same age division in singles and doubles.

Regulation 11: Missouri Valley Level 3 Tournaments. Annually, the USTA Missouri Valley sanctions two closed Level 3 tournaments for boys and girls in the 18, 16, 14, and 12 divisions that are open only to players with residency in the Missouri Valley.

- a) *Maximum Draw Size.* The maximum draw size is 32 for singles and 16 for doubles.
- b) *Singles.* Players are selected into the singles draw from among those who apply to enter in order of their standing on the most recent USTA **National** Standing List published before the draw is made.
- c) *Doubles.* Players are selected into the doubles draw based on the combined singles ranking of the team. Before the entry deadline, partners may apply online for entry by each player indicating the other as partner or by each partner emailing the Tournament Director. A player without a partner may also request to be placed into a blind draw before the doubles entry deadline.
 - Players in the singles draw are not required to play doubles
 - Players in the singles draw who wish to play doubles are required to team with another player, also in the singles draw unless not all of the players in the singles draw choose to play doubles. In this case, the player may team with any player on the Alternates List.
 - The doubles deadline is stated on the tournament homepage.
- d) *Player must play in same division in singles and doubles.* A player must play in the same age division in singles and

doubles.

- a) *Maximum Draw Size.* The maximum draw size is 16 players (8 teams of two).
- b) *Team Selection.* Teams are selected based on combined singles ranking from the most recent USTA **National** Standing List published before the draw is made. If two teams have the same combined ranking, the team with the higher ranked singles player will be placed ahead of the other team on the entry list.
- c) *Online Entry.* Players must apply online for entry as a team. A team will be considered for selection only if each player correctly applied online for entry, which means each player applied for the tournament with the other player listed as a partner. Players are responsible for applying correctly and correcting any errors before the entry deadline.
- d) *Withdrawal of a Player.* Because players are required to apply for entry in the tournament as a team, the withdrawal of one player is considered the withdrawal of the team. A player whose partner withdraws before the deadline may apply for entry with another partner. No new entries are accepted after the entry deadline, unless authorized by the Tournament Committee.
- e) *Tournament Format.* The tournament uses a Compass Draw format. In each round:
 - The two highest ranked players will play singles against each other;
 - The other two players will play singles against each other; and
 - The players will play doubles.
