One Flight - a new way of scheduling (W2.5, W3.5 Day, W4.0 Day)

USTA NorCal traditionally has broken divisions into groups called flights for Championships, and teams would only compete against other teams within their flight. This often creates situations in which teams quickly lose motivation to play because they realize they are almost certainly eliminated from advancing. Some captains have been forced to default lines because they couldn't find players that were willing to play in a match that "doesn't count." This often results in a bad experience for their opponents, especially for those that have sacrificed time and money to participate in championships.

USTA NorCal believes that a "One Flight" system would help solve this problem. By bringing the top two or four teams to the next round of Championships from one single flight, there is more incentive to play for teams that have lost in their first few matches. Teams will be more motivated to field their best players and not default knowing that they still have a mathematical chance to advance. For W2.5, W3.5 Day, and W4.0 Day, the new system gives teams that have a 1-1 record an opportunity to overtake a 2-0 team to reach the final. It makes every single game count in a way that is not possible in the traditional flight system.

The new system has already been adopted at National Championships, and it has received rave reviews from players and captains. We expect that NorCal players will feel similarly, and it will have the added bonus of better preparing your team if they make it to Nationals. USTA NorCal is piloting the new system for Adult 40 & Over Districts and Sectionals. The top four teams from larger flights at Districts will advance to Sectionals. We will evaluate the effectiveness and player satisfaction of the One Flight system after Sectionals.
