

Flex League Registration Instructions

General information: <http://www.norcal.usta.com/adults/leagues/flex/>

Creating an account on the Flex League website:

After you create an account please wait over night for the information to upload and then you can register.

<https://ustanortherncalifornia.topdoglive.com>

A couple of tips when creating your account:

- Make sure you include your USTA number.
- (For future seasons you will get a discount.)
- Include the home court you plan to play out of.

Registering:

<https://ustanortherncalifornia.topdoglive.com>

TO REGISTER:

- Click on the area you live in under FLEX LEAGUES.
- Click on Men's or Women's events.
- Click on the league you want to play in and finally the sign-up button in red.

NOTE: When you register:

1. If you are registering for doubles, you will be registering for you and your partner. **They will not need to register.**
2. **Make sure you choose under the promotion box for first time plays for free.** There is a selection for you and your partner. When you press continue and check out you will see no charge.
3. You may receive an error message regarding your USTA membership stating that you do not have one or need to renew for one of the following 2 reasons. (1) If you are registering the same day you have created a Flex League account you will see this message because the two systems need 24 hours to link. If you have never played Flex League just press continue. Make sure you choose under the promotion box for first time plays for free. There is a selection for you and your partner. When you press continue and check out you will see no charge. (2) If you are a current USTA member and you have a current USTA membership you may not have your USTA number in your Flex League profile and it is not receiving this information. Log into your Flex League account and enter your USTA number. Wait 24 hours and the information will link and you will no longer receive this message when you register. You will now receive the USTA discount to play Flex.
