

2024 USTA/PNW League Wild Card Chart and Guidelines

The size of the draw at a Section Championship is at the discretion of the Managing Director of Provider Services.

If additional teams are needed to fill out a draw at a certain level, the second-place team from the local area shown on the wild card chart below will be offered a wild card entry. If, after all second-place teams in a level have been offered a wild card entry and the draw is not complete, all 3rd place teams will be notified using the same order as listed below.

Team Withdrawal: When a Local Area Champion team withdraws from a Section Championship the Local Area Finalist (2nd place team) from that same local area will be the alternate team advanced to Sectionals. Should the Local Area Finalist be unable to attend the Section Championship then that place in the draw will be filled by the next eligible team from the Wild Card Order

Combined Areas: If two areas combine to form one league, then both automatic Sectional bids from those two areas will be awarded to the 1st and 2nd place team of the one league. As a result, no Wild Card will be offered to this Area until all other 2nd place teams have been offered a Wild Card. If necessary, the 3rd place team will be offered a Wild Card in the order of the Wild Card Order.

Same Number of Teams in Area: If there is a tie between two or more areas with the same number of teams, a random drawing will be done.

Rotation Order: All Wild Cards will be determined based on the number of teams within divisions by area with the areas with the most teams receiving the top Wild Card spot. The number of teams from the 2023 Championship Year is used so that teams can better plan whether or not they will receive a Wild Card in the 2024 Championship Year. If additional wild cards are available, they will be announced as soon as possible.
