

# USTA Junior National Championships Entries and Selection Information

## Entering Two Divisions

The USTA National Championships permit a player to enter more than one age division. However, it is important to understand the consequences of this decision.

If you want to play in a USTA National Championship, but are unsure if you will get in, you may enter up to two different age divisions. When selection is done, players are selected for the oldest age division first.

- If a player is selected into the older age division entered, the player will not be selected into the younger age division.
- If a player is not selected into the older age division, the player will only be considered for selection into the younger division and the player will only be eligible to be an alternate in the younger division.

## Doubles Selection Process

### Players Eligible to Enter Doubles Event

The following players are eligible to enter the doubles event of a USTA National Championships:

- Singles players
- Singles alternates
- Players with doubles-only endorsements

A player may not enter one division in singles and a different division in doubles at sites where two divisions are held.

### The Tournament Committee shall accept doubles teams into the doubles event in the following order:

1. Teams comprising two players in the singles draw shall be accepted.
2. Teams comprising one player in the singles draw and one sectionally-endorsed player not in the singles draw. If more than the maximum number of entries is received, selection order is based on the most recently published National Individual Doubles Seeding List (see Determining Order Using National Individual Seeding List below), except that no team comprised of a Late Applicant shall be selected before a team comprised of timely applicants. Tournaments are NOT authorized to expand the draw size beyond the authorized number of teams in order to accommodate these types of teams.
3. Teams comprising two sectionally-endorsed players not in the singles draw. If more than the maximum number of entries is received, selection order is based on the most recently published National Individual Doubles Seeding List (see Determining Order Using National Individual Seeding List below), except that no team comprised of a Late Applicant shall be selected before a team comprised of timely applicants. Tournaments are NOT authorized to expand the draw size beyond the authorized number of teams in order to accommodate these types of teams.

**Determining Order Using National Individual Doubles Seeding List.** Teams shall be seeded in the order of their combined standings using the most recently published National Individual Doubles Seeding List of the division. For example, Player A holds the #1 standing and Player B holds the #10 standing on the National Individual Doubles Seeding List. The Team of A&B would have the combined standing of 11. A team with a combined standing greater than 11 is seeded after Team A&B. If there is a tie, the team with the player that has the highest doubles standing on the list shall be seeded in the higher position.
