## **Level 2 Requirements:**

- Should follow Level 1 requirements and;
- Level 2 Championships should have a minimum of 225 total participants to remain a Level 2 tournament.
  - Due to the ITF restrictions on the number of Level 2 events that the USTA can sanction, the Subcommittee will only consider requests to become a Level 2 tournament from Level 3 tournaments that reach 225 total participants.
- Furthermore, it is expected that all Level 2 Championships have men's and women's divisions, or associated Level 2 sectional tournaments.
  - Exceptions: Atlanta-Men, Daniel Island-Women; Naples-Men, Ft. Lauderdale-Women, St. Petersburg-Men, Palm Beach- Women; all are current Level 2 Championships.
- Level 2 tournaments that do not meet these participation requirements in 2025 will, most likely, be reassigned to Level 3 status.
- On-site or off-site stringer

## **LEVEL 3 REQUIREMENTS:**

Should attempt to follow all Level 1 Tournament requirements.

- Should have a minimum of 125 total participants to remain a Level 3 tournament.
  - Although the ITF restrictions on the number of Level 3 events that the USTA can sanction is not as strict as Level 2s, the Subcommittee will only consider requests to become a Level 3 tournament from Level 4 tournaments that reach 125 total participants.
- Level 3 Championships must have men's and women's divisions.
  - Currently there are no Level 3 tournaments with associated men/women tournaments and, therefore, the exemption that the 6 Level 2 tournaments receive does not apply here.
  - Unlike Level 2 tournaments where all Championships must be ITF sanctioned; not all Level 3 tournaments qualify to be ITF sanctioned. This decision is made yearly by the Subcommittee.
